Treasure Box by Ciara Lucking

Treasure Box by Ciara Lucking

I am 10 and I love art, so my Mum was looking for a good website that I would enjoy and she found this one.

When I first got this box in the post I didn’t know what to create. Most of the things I got in the box like the wool samples, the picture of peas in a pod, some mini tiles and bricks, a square of artificial grass I didn’t actually use. In my head I had an image of an old attic with lots of Victorian artefacts and toys like rocking horses and big trunks full of clothes and fabric. In the corner there is a little servant’s dress which a young scullery maid would have worn. As I started to build it up I decided I wanted to turn it into a two story building with a small garden. I really enjoyed it and had absolutely no help at all.
