

Workshop Season in Review

By [Mostyn de Beer](#)

Mostyn de Beer is an experienced artist educator based in Sweden. Mostyn is especially interested in environmental art; his practice investigates links between creating art and environmental education. In this post, Mostyn looks back over the workshops he facilitated in 2021 and reflects on the artwork created and the playful moments shared with the children.

AccessArt is a UK Charity and we believe everyone has the right to be creative. AccessArt provides inspiration to help us all reach our creative potential.

Introduction to Charcoal

Green Thumbs

Which Artists: Tatyana Antoun

What We Like About This Resource...

“The research phase of a creative project can be presented in many different ways, and can even be an art form in itself. Here, Tatyana demonstrates how her sketchbooks became a medium through which she expressed her thoughts, refined her ideas and explored materials. We believe sketchbooks to be a powerful tool for children to take ownership of their ideas and travel on their own creative journey, without necessarily knowing the destination. Take a look at our [sketchbook journey](#) for more sketchbook inspiration” – Rachel, AccessArt.

Which Artists: Merlin Evans

What We Love About This Resource...

So often, we hear talk of the distinction between science and art, and no more so when teenagers proceed through their education and they are encouraged to choose one route or another. In reality, creative thinking helps scientific understanding and a scientific approach can inform and inspire art.

It's so refreshing to read and see Merlin's experience and understand how she works between these two areas – in her words *“mixing subjects, and seeing how they work and intersect is where inventions take place!”*

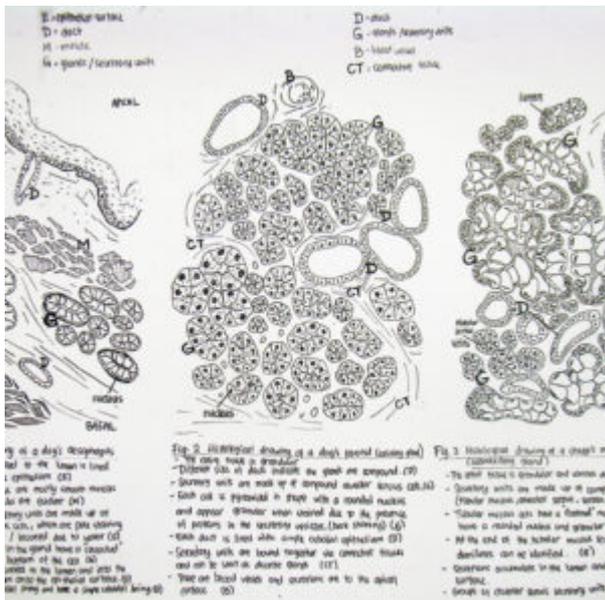

We also love the way her work embraces the *felt* world of being human, as well as the *known* world. We're sure many young people will find Merlin's work of interest and reassuring when they are pressured to choose *“art or science”*.
