

Screen Printing In The Classroom

By [Paula Briggs](#)

Screen printing is a very enabling activity - it's great fun and creates excellent outcomes, but because it normally requires expensive screens and lots of space, most schools aren't able to explore it as a medium. This post shares a simple method for screen printing in the classroom without specialist or expensive equipment, which makes it easier for you to manage in school. Watch all 3 videos to find out about preparation, process and cleaning.

The videos are available to [full members](#) below.

Which Artists: Theresa Easton

What We Like About This Resource...

“It’s interesting to hear Theresa describe Printmaking as a social activity, with the shared use of materials and equipment so central to the practice. This could be a positive way of working for lots of children in school, where instead of

just working on individual art work, they can collaborate and embrace the creative sharing experience!" – *Tobi, AccessArt.*
