

Modelling the Head in Clay

Part 4 – Features

This is the final post in a series of posts following teenagers modelling a clay head over a term with artist Melissa Pierce Murray. In the final session of the series: Modelling the Head in Clay, we look at how to form the features: eyes, ears, mouth. We look at ways to finish and embellish the form using hair, clothing or inventing horns. In the class we talked about how the muscles attach to the bones, and how the skin smoothes over the surfaces.

In this post This post is the third in a series of posts following teenagers making a clay head over the course of a term with artist Melissa Pierce Murray. Here they concentrate on developing the shape of the cranium and forehead, the structure of the eye sockets, cheekbones, jaws and teeth.

Modelling the Head in Clay Part 2 – Preparations

This post looks at two preparations for making a clay head: drawing to help us learn to see the form in the round, and taking measurements from life.

This is the second post in a series of resources showing how teenagers modelled a clay head over the course of a term.
