

A Wealth of Materials in Scrapstores

AccessArt believes in the power of making and the transformation and investigation of materials as an important and essential part of learning across disciplines and subjects, from art to science and beyond.

Many schools have found that **scrapstores** offer a treasure trove of recycled materials that can create real opportunities for learning and exploration in the classroom and our own visits to local scrapstores in **Herts** and [Cambridgeshire](#) have provided AccessArt with an exciting variety of media that has stimulated many ideas for several successful workshops.

To find a scrapstore near you, have a look at [Reuseful UK](#).

We hope that the resources below will inspire you to discover,

Megan Boyd

Scottish Fishing Fly Maker

In a cottage in northern Scotland, Megan Boyd twirled bits of feather, fur, silver and gold into elaborate fishing flies – at once miniature works of art and absolutely lethal. Wherever men and women cast their lines for the mighty Atlantic salmon, her name is whispered in mythic reverence, and stories about her surface and swirl like fairy tales. With breathtaking

cinematography and expressive, hand painted animation, Kiss the Water adheres to and escapes from traditional documentary form, spinning the facts and fictions of one woman's life into a stunning film about craft, devotion, love, and its illusions.

Enjoy the preview of Kiss the Water below – the film is sure to inspire.
