School Murals Inside and Out: Towards the Bigger Picture

Tracy worked on two murals at two different schools, one inside, and one outside. The creation of both murals shared many similar processes, in particular the sensitive way in which Tracy enabled the children to create their own imagery which contributed towards a shared outcome. Here Tracy shares her methodology and ideas.

Which Artists: Faith Bebbington

What We Like About This Resource...

“Faith’s work creating sculptures using recycled or discarded plastic is really beautiful, and exceeds expectation of what we might consider scrap plastic being able to do. The processes she uses, particularly with the dancing figures, are all easily accessible to a school setting, with tape, card, wire being relatively inexpensive and simple to use. Delivering an Art project using waste plastic has cross curricular links with other subject areas, particularly PSHE and

Geography where children may be learning about the environment and how to protect it” – Tobi, AccessArt.
