

Red to Green: Monoprinting

Monoprinting is an excellent way to access mark making and drawing but with a bit of 'distance' from the finished work. Results are always unexpected and the process itself very engaging, so any potential anxiety about what a finished drawing 'should' look like is taken away.

Understanding Foreshortening

When drawing the life model, it can be difficult to process your view of a 3D form into a 2D representation. Hester explains clearly and concisely how to successfully achieve a foreshortened figure to create the illusion of space in your drawings.

Using Tone

Hester explains how to use tone effectively to give your drawings more definition and an increased sense of volume and suggests ways of using tone when drawing short poses, that will build your confidence and skills.
