

# Making a Ruler Drawing (of a Bag)

By [Paula Briggs](#)

This resource demonstrates how a ruler or straight edge can be used to make a drawing. In this example, we use this method to help us make drawings of bags, exploring their structure and detail through straight line mark-making. The video is suitable for ages 10 and upwards.

## Which Artists: Jason Line

## What We Like About This Resource...

“It’s always so inspiring to hear how different artists work and we particularly like the detailed references Jake makes to his process – marking out the composition using neutral tones; adding and taking away compositional elements and gradually building in more colour and detail. Delivering a still life session in a classroom could begin with this process and encourage the practice of looking

at positive and negative space. Some suggested resources below also touch on this". – *Rachel, AccessArt*

## **What We Like About This Resource...**

**"We're really grateful to Jake from Draw Brighton for sharing this activity which became so well received during lockdown 2020.**

**This is the perfect reminder that wherever we are in the digital or physical world, we have our eyes, hands and faces, and drawing provides a wonderful opportunity to come together in small**

groups to make sketches of each other. Use this activity as an ice breaker before a workshop, or as a transition activity between classes or events. Thank you Jake!" *Paula, AccessArt*
