

# Insect Hotels

By [Tobi Meuwissen](#)

In this two-part resource exploring making and drawing, students will have the opportunity to create insect hotels using natural materials sourced from their local area. They will go on to create drawings inspired by their insect hotels, experimenting with different materials and mark-making. This activity can be adapted for age groups and can be linked to curriculum topics in science such as mini beasts and habitats. [Become a member](#) to access the full post below.

## **Painting with Poster Paint**

"I really like how this resource provides lots of interesting and exciting ways for poster paint to be used. It combines observational drawing and painting with more abstract pattern providing a breadth of exploration. Giving learners the opportunity to explore the properties of poster paint as well as seeing how it responds to different materials will help to nurture imaginations as well as providing support for the development of basic skillsets." – Rachel, AccessArt

**What We Like About This**

# Resource...

*“This activity highlights how visual communication can be used to convey emotion. When artwork is relatable in a human and emotive way it can be really powerful. Learning how to translate feeling into mark-making is a really important skill and can help children break down the essence of a range of their own emotions, and communicate it to others. Explore colour and a range of materials to enrich this experience.” – Tobi, AccessArt.*

## Drawing With Your Feet

### What We Like About This

# Resource

*“I love this resource because I can picture the energy in the classroom whilst students enjoy the process of mark-making using their feet. Creating drawings with parts of the body other than hands can be really freeing; students will hopefully look at their drawings in a less critical way, with the emphasis of the activity being more about the process than the outcome. It might be a nice addition to use a viewfinder to zoom in on areas where the marks collide in interesting ways” – Tobi, AccessArt.*

---

## Drawing with Sticks

# What We Like About This Resource

*“This is a great activity to get students to think about drawing in a different way. Extending reach and accepting a lack of control can lead to really exciting and energised mark-making. It’s great to see that this resource has also been used in SEND settings, demonstrating its accessibility.”* – Tobi, AccessArt.
