

Which Artists: Liz West

By Liz West

Liz West is an Internationally Acclaimed Visual Artist who uses light as a tool, controlling the amount, shape, form, size, colour, strength and quality to fill architectural or fabricated structures. Liz's installations immerse the viewer in saturated environments and are known to stir up emotional responses in those who see it. In this post, Liz talks about her creative journey, inspirations for her installations and how her ideas materialise into reality. This post may be of interest to secondary school students keen to explore the potential of space and environment.

AccessArt is a UK Charity and we believe everyone has the right to be creative. AccessArt provides inspiration to help us all reach our creative potential.

What We Like About This Resource...

"It's really interesting to hear how the interest Liz has in the quality of light comes from a personal place and is something she has responded

to since childhood. Seeing how her work has developed over the years is therefore a really positive reinforcement that individual creative journeys, where nurtured, are so central to a rich arts education. We also love hearing Liz is always on the 'quest for knowledge' – meaning she is open to her ideas constantly evolving and the process of gathering new information and inspiration never stops!" – Rachel, AccessArt

Which Artists: Su Blackwell

What We Like About This Resource...

“It’s really interesting to hear how Su’s career path evolved organically, and how experimenting with different disciplines such as ceramics and sculpture whilst studying Textiles at the RCA began her journey towards paper craft and books. We really like how the small book sculptures inspired the larger scale set designs for The Snow Queen. They transfer so effectively to the stage and you can imagine how engaging it would be for a young audience to recognise letters and words on

lampposts and other scenic elements". – *Rachel, AccessArt*

Which Artists: Cas Holmes

What We Like About This Resource...

"The sense of journey and feeling of movement is such an interesting part of Cas' textile work here. We love how location and place is communicated through the variety of fluid and meandering textile marks used. Cas' Romani background as well as early experience living in Japan make for a rich cultural backdrop to her work. The themes here could be explored in the

classroom by asking children to use memories of places they've visited to produce a creative response using fabrics and mixed media" – *Rachel, AccessArt*

Draw, Paint, Build, Make: Gallery Project

Making a Pocket Gallery

This post shares an idea devised by Anne-Louise Quinton in which she enables children and teenagers to revisit the “ordinary” and resee it’s potential. The activity is a great way not only to inspire children as artists and curators, but also to introduce them to a whole range of concepts and vocabulary. It would be a great activity to use in a museum and gallery education context, as well as the classroom.
