

Still Life Compositions: Inspired by Cezanne

By [Joanne Andrews](#)

In this activity, Early Years teacher Joanne Andrews challenged her class to create their own still life composition as a response to paintings by Cezanne, whilst giving each child the opportunity to create, photograph and paint their own composition. This project is great for (but not limited to) Early Years children who are developing their motor and mark-making skills. Find out more about how you can tailor this project to different key stages and give your students ownership over their still life projects below.

AccessArt is a UK Charity and we believe everyone has the right to be creative. AccessArt provides inspiration to help us all reach our creative potential.

What We Like About This Resource...

“This activity walks through a number of different processes and taps into multiple skills. This provides a rich exploratory project for children

to fully immerse themselves in. Cezanne was the focus artist for this project, but other contemporary still life painters could be used as starter inspiration. We actually advocate showing the work of more than one artist as this builds knowledge of how approaches to painting, drawing etc differ. This also helps children move towards a personal response rather than creating a 'copy' of one particular artist's work" – Rachel, AccessArt

What We Like About This Resource...

“The sentiment behind this resource idea is lovely and it provides an opportunity to really develop some fine motor skills as well as independence of approach. Taking ownership of the medal design means the sense of achievement is heightened beyond the children just being given one. You can really imagine the positive energy that would surround this activity within a classroom, with each child working on a shared project but embarking on their own creative journey.” – *Rachel, AccessArt*

Making Musical Instruments

What We Like About This Resource...

“It’s great to see music being explored in this way, and combining it with making creates a really interesting immersive project. This activity would work well as part of an extended project looking at musical instruments around the world and some of the natural materials they are made from.” – *Rachel, AccessArt*

What We Like About This Resource...

“There’s a really fun element to this activity which is you can imagine all children really enjoying! The idea of food on large scale is a great starter for a sculpture project and an early exploration of working in 3D. What’s really positive to see in this project is how the children used their sketchbooks to design their ice creams prior to working in 3D. They then had

the opportunity to re visit and refine their ideas as they worked. This provides a solid foundation for the concept of design development and design through making- both of which underpin any visual arts or design project or profession. For more support on how to develop sketchbook practice in your setting please see our [Sketchbook Journey](#)" – Rachel, AccessArt

Unesco: Celebrating the Power of Making!

Inspired by Paula's recent rousing film, 'It's in Our Hands', artist Jan Miller pulled images together from her own teaching to illustrate the things the children in her classroom do with their hands

Mini World Light Boxes

Teacher Anna Campbell shares this beautiful resource which shares how children aged between 4 and 7 years old, made 'Light' boxes. This project could easily be adapted for an older class and is brilliant for SEN children/adults.

Abstract Face – Relief Sculptures

In this construction and painting resource, students make an abstract face, relief sculpture from cardboard, adding colour, texture and metal findings. This resource was inspired by the work of Kimmy Cantrell, a self-taught contemporary artist who uses asymmetry to question long-established views around beauty.

‘Painting’ with Plasticine

In this resource, students create an A4 plasticine painting on mountboard, in a theme of their choice. The artwork is completed with a painted border using water based paints. This project took six, one hour sessions to complete but if you can't allocate that amount of time, reduce the size of the mountboard to A5 or smaller.

David Parr House – “What’s Your Space?”

In celebration of the opening of David Parr House in Cambridge, this resource aims to inspire children aged 8 to 12 to explore design.

Pimp That Snack! Large Scale Food Sculptures

Art educator Anne-Louise Quinton shares a process for making super sized food sculptures from everyday materials, inspired by the work of Claes Oldenburg. This is a fun and challenging sculpture project for Year Nine and above.

Sculpture from Sculpture

Inspired by sculptures by Henry Moore, Barbara Hepworth and Jacob Epstein and looking at 'inside' and 'outside' shapes, students created their own constructions with help of artist Anne-Louise Quinton.

Sculptures with Personality, Inspired by Anglo Saxon Houses

This resource shares a 3 hour session with Year 6 children from Barton Church of England Primary School. Children were studying the Anglo Saxons and we thought it would be a good opportunity to explore making skills.

Led by Paula Briggs, children to "make sculptures inspired by" an Anglo Saxon Village.

Making a Pocket Gallery

This post shares an idea devised by Anne-Louise Quinton in which she enables children and teenagers to revisit the "ordinary" and resee it's potential. The activity is a great way not only to inspire children as artists and curators, but

also to introduce them to a whole range of concepts and vocabulary. It would be a great activity to use in a museum and gallery education context, as well as the classroom.
