

Working with Dogwood

By [Mostyn de Beer](#)

Mostyn de Beer is an experienced artist educator based in Sweden. Mostyn is especially interested in environmental art; his practice investigates links between creating art and environmental education. In this post (the second one in [a series](#)), Mostyn is reflecting on his experience working with a particular natural material - dogwood - and the outcomes created by Mostyn himself and his workshop participants.

What We Like About This Resource...

“It’s lovely to see a resource that centres on a particular material and the scope it offers. I particularly like how the dogwood is used here to

make wooden beads. This idea could be developed further by looking at how wood has been used to make jewelry throughout history and within many different cultures.” – *Rachel, AccessArt.*

What We Like About This Resource...

"There's a really fun element to this activity

which is you can imagine all children really enjoying! The idea of food on large scale is a great starter for a sculpture project and an early exploration of working in 3D. What's really positive to see in this project is how the children used their sketchbooks to design their ice creams prior to working in 3D. They then had the opportunity to re visit and refine their ideas as they worked. This provides a solid foundation for the concept of design development and design through making- both of which underpin any visual arts or design project or profession. For more support on how to develop sketchbook practice in your setting please see our [Sketchbook Journey](#)" – Rachel, AccessArt

What We Like About This Resource...

“Rosie highlights the importance of embracing a wide variety of interests and ways of working into our wider creative practice, resulting in wonderfully rich and very personal explorations and outcomes.

There are so many clues in this resource for teachers. Look out for how Rosie slows down her whole process into a series of interconnected stages, which weave in and out of each other. These include time for research (collecting and observing), analysing and revisiting, drawing, making and finally documenting.” *Paula, AccessArt*

Cupid and Psyche: How a Fifteenth-Century Renaissance Panel Became the Most Loved Painting in Cambridgeshire

Sheila Ceccarelli tells the story of how Cupid and Psyche, painted by Jacopo Del Sellaio, an Italian Renaissance artist, came to become the most loved painting in Cambridgeshire. Inspire is an exhibition of art made by primary school children and celebrates the creativity of our local schools. It champions the on-going importance of cultural learning and the visual arts for children and young people. A chance also to see Del Sellaio's Cupid and Psyche on display next to the children's work.
