

Collagraph, Collage and Stitch: Make a Image of Your Home on Fabric

By [Andrea Butler](#)

This resource was inspired by an [AccessArt participatory project](#) The AccessArt Village and could easily be adapted for a general architectural project. The process combines a collagraph print, fabric and stitch to create a 2D image which could then be used to [make a sculptural model house](#).

What We Like About This Resource...

“Rachel has contributed some great resources to AccessArt and we really like how this idea captures the concept of ‘returning’ – something that school children will have processed over the past year. We love how this activity encourages hands to feel and move paint about freely – to experience its qualities and tactile nature. You could try this in your setting using different migratory birds such as Ospreys or Swifts as inspiration, with the children looking at images of these birds before trying some observational drawing.” – *Rachel, AccessArt.*
