

DrawAble!

Drawing for Discovery and Story Telling

DrawAble was created during the COVID-19 pandemic to provide teachers with accessible and high-quality free resources that could be shared directly with learners.

DrawAble resources, will help learners build their understanding of how drawing and narrative connect, using imagination and visual literacy to bring ideas to life.

Explore DrawAble resources below.

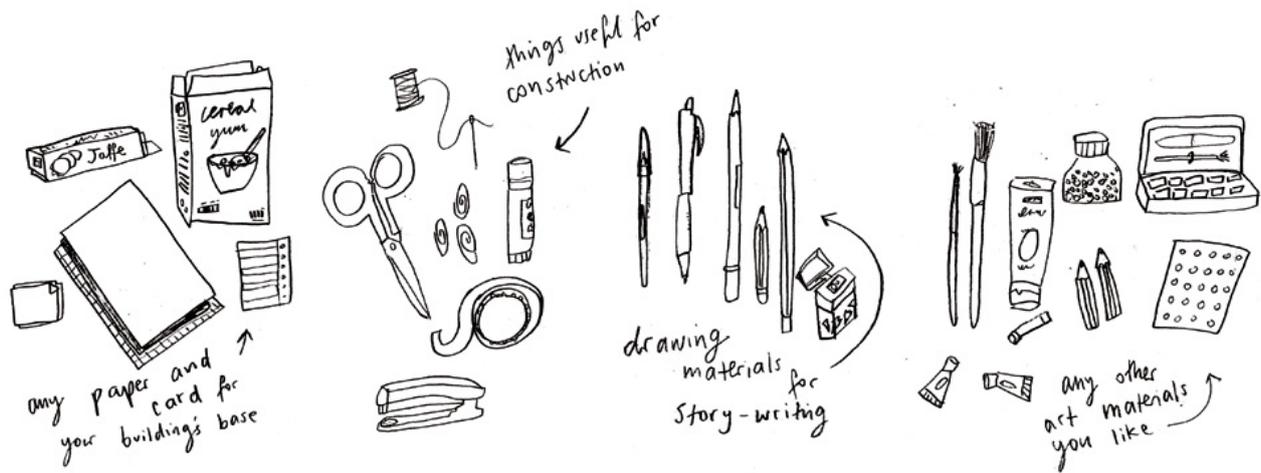

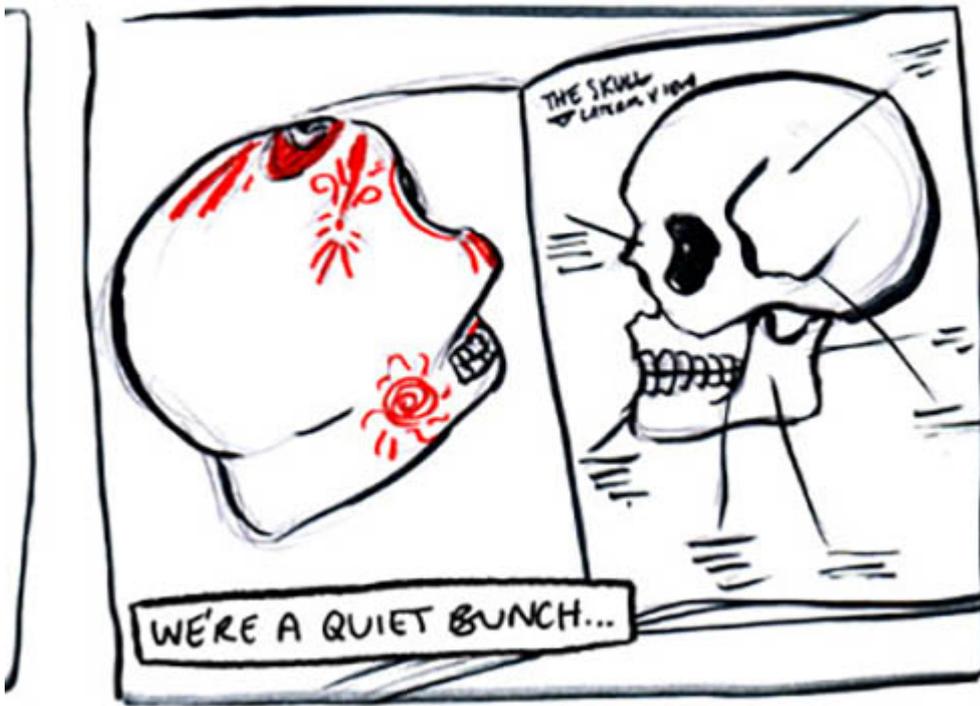

Image by Rose Feather

DrawAble is a valuable resource for learners both inside and outside of mainstream settings for a variety of reasons.

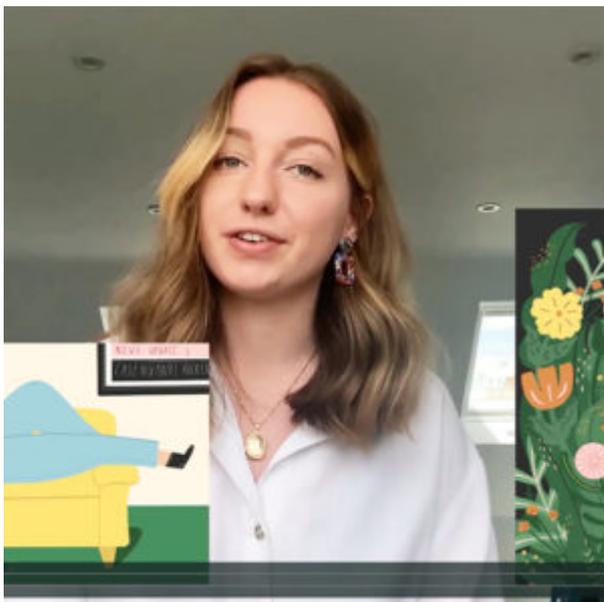

These resources give educators and parents everything they need to nurture creative learning in a gentle, inclusive way. They were thoughtfully designed with extra care for the physical and emotional challenges pupils were experiencing at the time, making them especially helpful for those facing EBSA or who need a bit of extra support.

DrawAble has 3 Main Elements...

Let Me Inspire You!

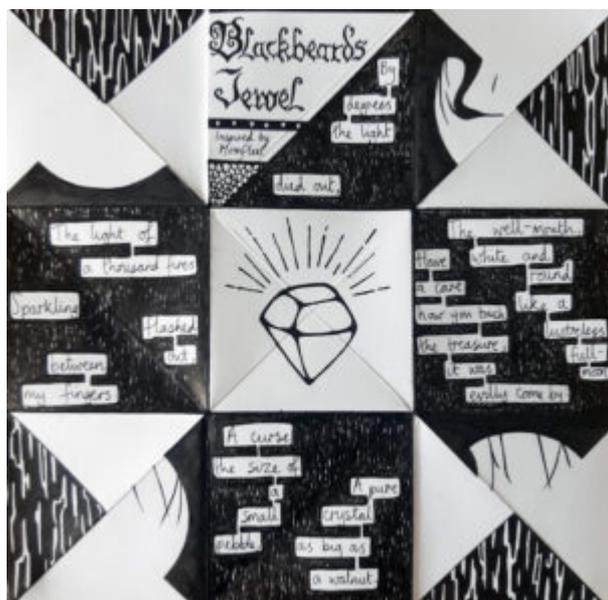

Artists inspire us by sharing their stories and passions. Watch these short videos before you try some of our DrawAble activities

Building Your Story

Explore our DrawAble activities aimed at children aged 6 to 13 (and older!) and discover how drawing can help you find your way

Envisioning Stories

Use drawing as a way to reinterpret literature, poetry, film, theatre, drama and music, to make it your own
