

Making Boats that Float Out of Everyday Materials

By [Sheila Ceccarelli](#)

What Makes a Boat Float?

Boats that Float - Workshop with year four pupils at Ridgefield Primary School

This was an afternoon session for year four pupils at [Ridgefield Primary School](#), Cambridge.

Getting started! Exploring the materials and gathering ideas...

This session was aimed at children who love making, and was limited to eight pupils, to allow for a rich, and rewarding experience and plenty of time to play with, and explore materials.

We kicked off the session by asking the question -- "what makes a boat float?" -- and looked at the shapes of some toy boats.
