## Mayan Tabletop Eraser Printing Project

By Sheila Ceccarelli

Sometimes you get a really good homework project.

Following a visit to the <u>Museum of Archaeology and</u> <u>Anthropology, Cambridge</u>, children at a local school, were given a Mayan Project for homework.

This was a perfect opportunity to try out <u>Morag Thomson</u> <u>Merriman</u>'s <u>Eraser Printing</u>! It turned out to be a wonderful process for little hands to explore carving with lino-tools, to create printing blocks with really effective results.

After lots of experimentation with designs through sketchbook work, the final work was a piece of printed fabric inspired by the Mayans.
