Mayan Tabletop Eraser Printing Project

By **Sheila Ceccarelli**

Sometimes you get a really good homework project.

Following a visit to the **Museum of Archaeology and Anthropology, Cambridge**, children at a local school, were given a Mayan Project for homework.

This was a perfect opportunity to try out **Morag Thomson Merriman**'s **Eraser Printing**! It turned out to be a wonderful process for little hands to explore carving with lino-tools, to create printing blocks with really effective results.

After lots of experimentation with designs through sketchbook work, the final work was a piece of printed fabric inspired by the Mayans.
