

Susie Olczak

Susie Olczak

Born 1988.

BA Hons Fine Art Sculpture. Glasgow School of Art. 2010

Lives and works in London, UK.

I create sculpture, photography and installations that explore how I perceive geometry, light and materials as I move through urban spaces.

I use materials that I am surrounded by in cities such as concrete, metal, electrical lighting and stone.

My work is minimal, colourful and geometric and is influenced strongly by my time living in Japan.

My work has been shown around the UK, in Japan and

Finland, both in galleries and the public realm. Commissions include work for BBC Scotland, The Cambridge Institute of Astronomy, Charles Saatchi at the Big Chill Festival, King's College, Cambridge and The National Trust.
