AccessArt Olympics: Stadium Design

[<<Explore Other Olympic Themes](#)

Explore the project below to help pupils consider how they might design and build an Olympic and Paralympic stadium for an Olympic [Ceremony](#).

Stadium Design

Aim: To introduce pupils to architecture through stadium design. Pupils will get the opportunity to transform and manipulate materials through model making, thinking about the form and function of a stadium.

Step 1: Introduce in Sketchbooks

Consider asking pupils to make an Olympic project sketchbook using one of the “[Making Sketchbooks](#)” resources.

Begin by introducing students to stadiums designed for the Olympics and Paralympics with “[Talking Points: Olympic and Paralympic Stadiums](#)”. Invite pupils to create “[Visual Notes](#)” in their sketchbooks inspired by the information they see.

© Iwan Baan

Step 2: Drawing and Making

Using “[Drawing Source Material: Inspirational Stadiums](#)” invite pupils to create drawings inspired by what they can see. Find out how to run this guided session with the “[Show Me What You See](#)” resource.

Introduce this short making task “[Roots and Shoots](#)” to get pupils to think about how they might get creative with making, attaching and manipulating materials.

Step 3: Making

Get pupils to work in pairs or small groups to create “[A Model Studio](#)” of a stadium. They may choose to start with designing or making first. Remind them of what they learnt about materials in the previous step.

Alternatively, you may want to build stadiums by adapting “[Inspired by google Earth: Making](#)”. Use polystyrene to build the stadium from the ground

up.

Extension: Use the [“Taking Photos of 3D Artwork”](#) resource to incorporate a digital element into the project. For help with introducing pupils to green screens see the [“Exploring Scale with Green Screens”](#) resource.

Step 4: Reflect

[Use the resource here to help you run a class “crit” to finish the project.](#)

Invite children to display the work in a clear space on tables or on the wall. Recap with them about the exploration – where they started, what they discovered and what they enjoyed.

If you have class cameras or tablets, invite the

children to document their work, working in pairs or teams.

AGES 11-14

Materials:

Sketchbooks

A3 Paper

Drawing materials

Making Materials: Card, Coffee stirrers and/or lolly sticks, Twigs, Foam board, Toothpicks, Wire, String, Colour Gels, Polystyrene, Cardboard

PVA Glue

Scissors

Glue Guns

Tablet (Optional)

Green Card (Optional)

Adaptations:

You may like to shift the focus of this project to Ancient Greek architecture and stadiums, to explore structures such as the Parthenon. You may find resources in the “[A Sketchbook Pathway, Anglo Saxon Architecture](#)” helpful.

Think about significant buildings or history within the local area that you could integrate elements of into stadiums, forming links to locality.

**AccessArt Olympics: Ancient
Greek Architecture**

[<<Explore Other Olympic Themes](#)

Explore the project below to help pupils discover Ancient Greek architecture inspired by Olympic [History](#).

Ancient Greek Architecture

Aim: Pupils will explore Ancient Greek architecture through sketchbooks, collage and sculpture.

Step 1: Introduce in Sketchbooks

Consider asking pupils to make an Olympic project sketchbook using one of the “[Making Sketchbooks](#)” resources.

Begin by introducing pupils to the first ever Olympic stadium in Olympia with “[Talking Points: Olympic and Paralympic Stadiums](#)”. Use the questions to prompt discussion.

Follow on in sketchbooks with a drawing activity, exploring architecture using “[Drawing Source Materials: Ancient Greek Architecture](#)” as a drawing prompt.

Invite pupils to create drawings inspired by the source material using the “[Show Me What You See](#)” method. You can find a case study for this method inspired by [Anglo Saxon architecture](#) which will need to be adapted.

Step 2: Drawing

Adapt the “[Houses From Around The World](#)” resource to create textured collage drawings inspired by Ancient Greek Architecture. Invite pupils to look at the range of marks and lines made in sketchbooks in the previous session and build upon them.

If you would like to focus on making skills you may like to skip this step.

Step 3: Making

Create Sculptures with Personality inspired by the ["Sculptures with Personality, Inspired by anglo Saxon Houses"](#) resource.

Making "sculptures" rather than "models" enables pupils to grow their ideas in individual directions, using the architecture of Ancient Greek buildings as a starting point.

Step 4: Reflect

[Use the resource here to help you run a class](#)

[“crit” to finish the project.](#)

Invite children to display the work in a clear space on tables or on the wall. Recap with them about the exploration – where they started, what they discovered and what they enjoyed.

If you have class cameras or tablets, invite the children to document their work, working in pairs or teams.
