

Collecting, Drawing

Arranging,

This activity for EYFS and SEND aims to help children develop their collecting skills. Students will curate their own collection by selecting objects and arranging them in a cardboard box. They will go on to draw their personalised collections. Children will end up with totally unique drawings, whilst experimenting with new materials and practising their hand-eye co-ordination.

What We Like About This Resource...

'This resource really demonstrates how art can successfully bring awareness to important humanitarian issues, promote inclusivity and can give a platform to those who otherwise wouldn't be heard. The links between text, photos and drawings are really strong and demonstrate the creative process used by Olivier from start to finish. I really like the inclusion of suggestions for students within the post, which encourage students to learn more about their community and to understand the experience of being displaced. This in turn will hopefully inspire the next generation to be part of an inclusive and empathetic society.' – Tobi, AccessArt

Drawing With Your Feet

What We Like About This Resource

"I love this resource because I can picture the energy in the classroom whilst students enjoy the

process of mark-making using their feet. Creating drawings with parts of the body other than hands can be really freeing; students will hopefully look at their drawings in a less critical way, with the emphasis of the activity being more about the process than the outcome. It might be a nice addition to use a viewfinder to zoom in on areas where the marks collide in interesting ways” – Tobi, AccessArt.

Drawing Source Material: Orchestras and Instruments

A collection of imagery and sources which you can use to prompt drawing in schools and community groups.

Please note that this page contains links to external websites and has videos from external websites embedded. At the time of creating, AccessArt checked all links to ensure content is appropriate for teachers to access. However external websites and videos are updated and that is beyond our control.

Please [let us know](#) if you find a 404 link, or if you feel content is no longer appropriate.

We strongly recommend as part of good teaching practice that teachers watch all videos and visit all websites before sharing with a class. On occasion there may be elements of a video you would prefer not to show to your class and it is the teacher's responsibility to ensure content is appropriate. Many thanks.

Orchestras and Instruments

Use the film below to enable children to explore orchestras and instruments. Try to create a sense of momentum – for example you might pause the video 4 times and ask the pupils to make a 1 minute, 2 minute, 3 minute and 4 minute drawing at each pause.

Encourage close and slow looking by talking as they draw – use your voice to attract their attention to different qualities.

Try the same exercise using different materials, ie handwriting pen, ink and nib, pastel, watercolour...

How might you invent your own instrument? What instruments might you combine? Is it self playing?
