

# Drawing Inspired by Elements: Making Structure

Drawing Inspired by Elements consists of four drawing exercises which are designed to help you to look again at some of our most elemental drawing materials and find inspiration in the elemental qualities of earth, water, and fire.

In contrast to the potential chaos of drawing moving water, in this exercise you are going to first *build* a structure, which you then draw. Just as you built your knowledge by observing the moving water before you began to draw, in this assignment you are going to build your knowledge of the structure by taking an active part in making it, before you put that knowledge to good use when you make your drawing.

Continuous Line Drawing of a Structure
