

Steampunk Robots: A Kitbash Sculpture Unit

This resource, by Esmé Dawson, shows the processes students went through to create a robot sculpture that could live in a steampunk world. The main technique used was 'kitbashing;' the art of making a sculpture by taking bits out of broken plastic toys or using found and recycled objects.

Making Mini Food

Making mini meals from Sculpey or Fimo clay takes good eye sight and nimble fingers! Here are some tips and tricks I have learnt along the way.

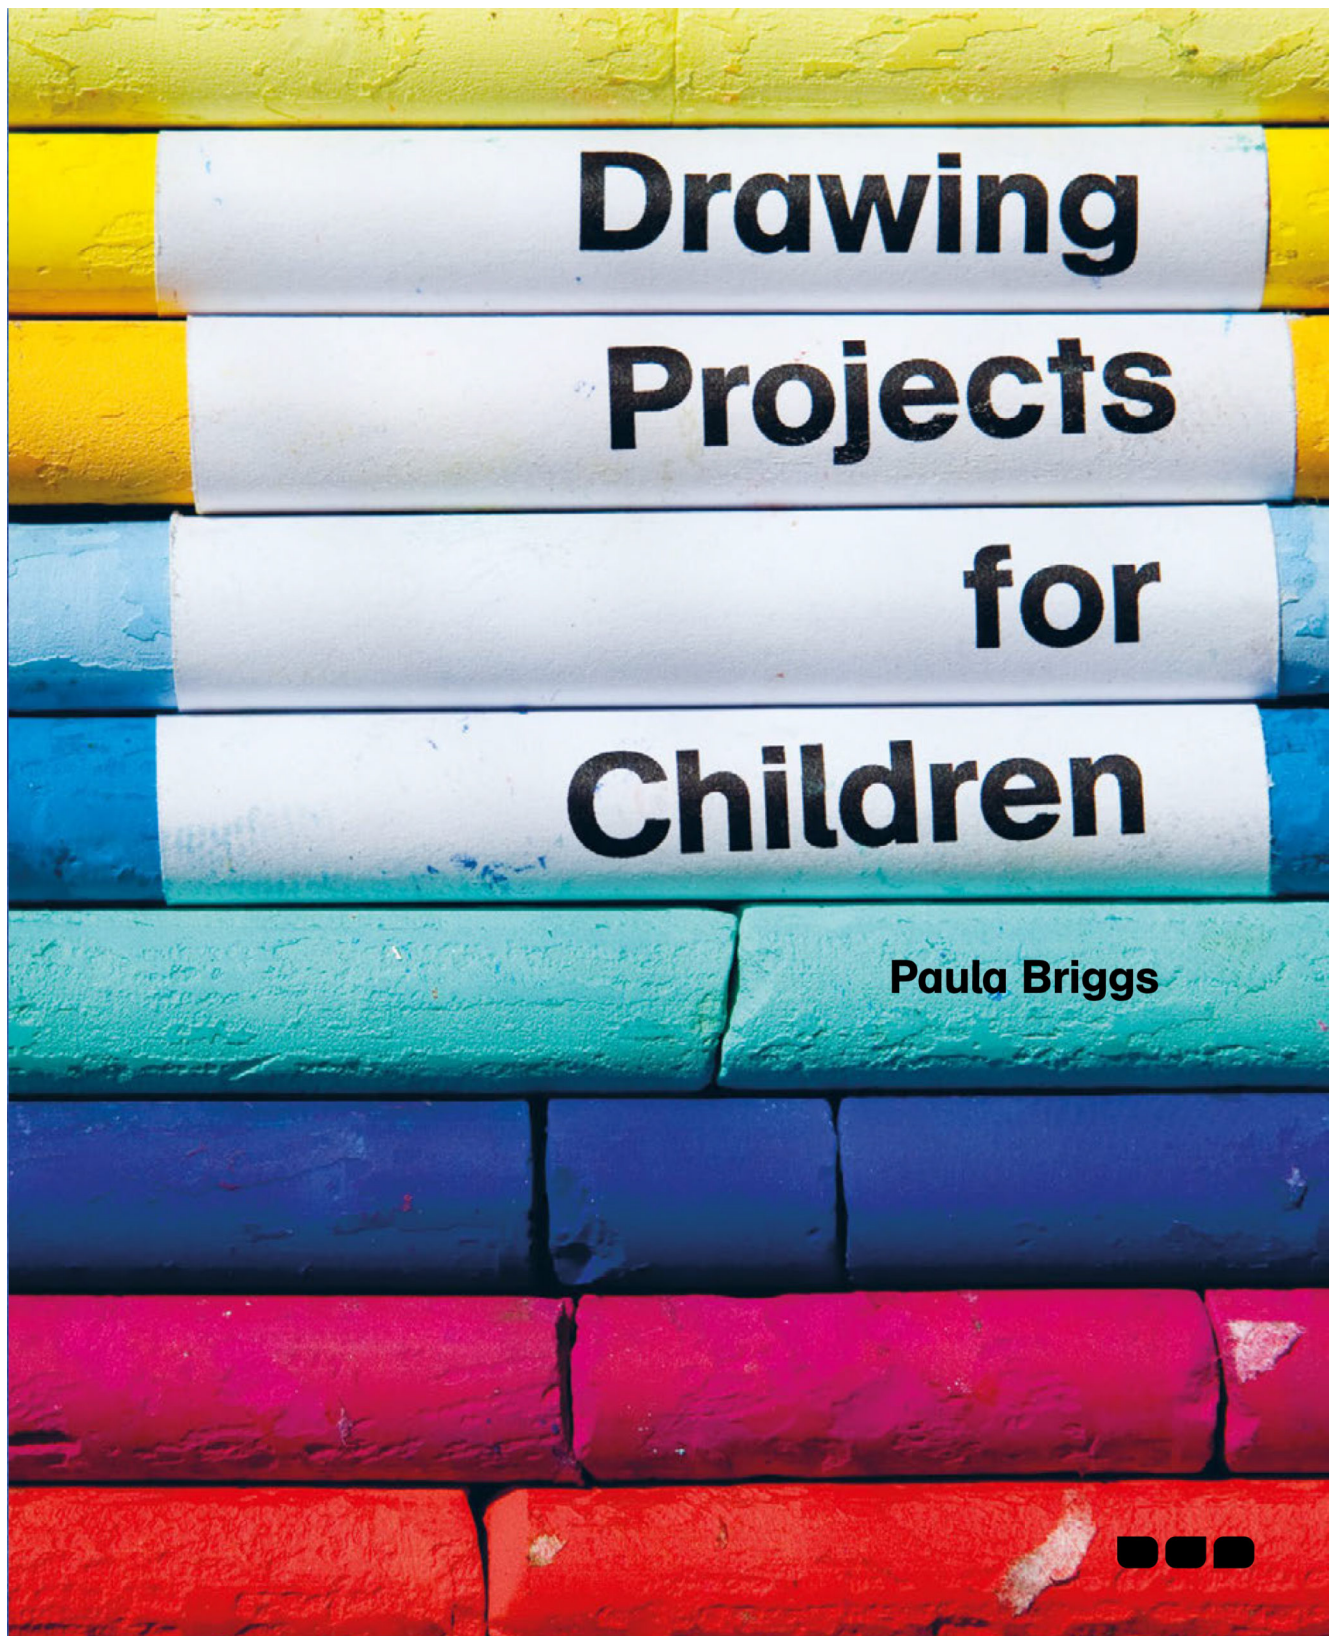

Two Beautiful Books to Inspire Teaching & Learning

Drawing Projects for Children and **Make Build Create** aim to inspire and enable children, teachers, facilitators and workshop leaders to explore drawing and sculpture in an active and adventurous way.

Find further details about each book, including reviews, below.

**The exercises and projects in these books are aimed at children aged 5 to 12, however the majority of the projects can easily be adapted for older pupils and adults too.*

Drawing Projects for Children

MAKE BUILD CREATE

PAULA BRIGGS

**black dog
publishing**

Published by Black Dog Press

Ros Corser

Make Build Create by Paula Briggs is an informative and helpful manual that describes a series of creative sculptural projects designed to engage all. Beautiful photographs run throughout the book, making it as visually appealing as it is inspiring. Thank you, Paula, for such an inspirational book, encouraging “hands-on art” for everyone.

Amanda Warren, NSEAD Network

Make, Build, Create is an inspiring book. Like its predecessor ‘Drawing Projects for Children’, it is beautifully produced, with beguiling photographs and a carefully laid out task which is easy to access whilst being packed with inspiration.

Based on the premise that children love to make things but probably are given insufficient opportunity, the book guides the reader through some basic premises (such as “Why make?”) and useful information about equipment and safe procedures. Some of the materials suggested may have been neglected in recent years (I confess it is a long time since I used plaster in powder form), and there are zany ideas, too. Making a plinth for a figure looks sure to appeal! And those wire insects! The photos can easily be shared with a group of children to inspire them or to illustrate processes.

My only query is who the book is aimed at. To begin with, I thought it was a book for children, but the foreword is definitely for teachers and facilitators. But does it really matter? The book is sumptuous, gorgeous, and appealing. Paula Briggs has done it again; let’s get making!

Amanda Morris-Drake, Darwin Centre for Young People

Full of excellent ideas and beautifully presented.

Perseverance, Determination and Inventiveness: Building Nests

Year 4 pupils from Comberton Village College and Cambourne Village College feeder schools met for a Gifted and Talented Sculpture Masterclass led by AccessArt at Bourn Primary Academy. The session centred around an exploration of the materials and construction methods we might use to build inventive, sculptural nests.

Astronaut Paper Body Casts by Gillian Adair McFarland

A non messy, big impact project in a day on the theme of space exploration to fit with Tim Peake going to the International Space Station.

Barbie & Ken Transformation

This adaptable resource shares how we transformed Barbie dolls using paper, fabric, modroc and paint. We had great fun researching and designing costumes and exploring appropriate materials. By Paula Briggs

Year 3 & 4 Making Club: Animal Parade – Week Two

This was the second session in a series of three 'Animal Parade' workshops, where children at Making Club at Milton Road Primary School, made 3D animal masks.

After having chosen their animals and created unique designs based on their Carnival Mask Templates in week one, children now attempted to cut and staple their creations to make them three dimensional.

Long Legged Animals by Years 3 & 4 Making Club

Year three and four pupils explore making their own sculptures and to take on sculptural challenges like how to construct with a variety of materials, including Modroc, and (most importantly) how to make their creations stand.

Years 3 and 4 D&T and Making Club

A collection of resources by Sheila Ceccarelli based on her Brilliant Makers Club for year three and four pupils at Milton Road Primary School, Cambridge. Children were encouraged to experiment, think and engineer creative solutions by working on simple projects, with individual and independently generated outcomes.

40 Minute Cardboard and Double-Sided Sticky Tape Engineering Challenge

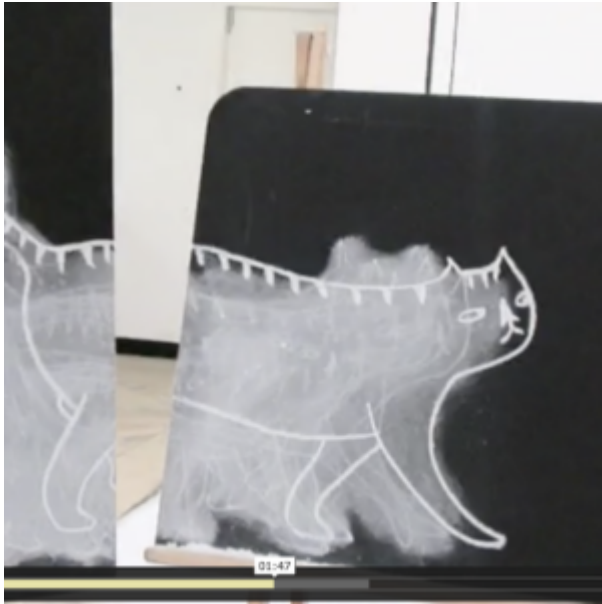

This workshop was all about getting year three and four Brilliant Makers at Milton Road Primary School to think about the biggest challenge for any maker: how to make something stand up.

My House – A Cardboard

Construction Project

These autobiographical architectural sculptures use corrugated cardboard, laid in strips on their side, to create sculptures designed to be peered in to!

Autobiographical Suitcase Pop-Up Gallery

This resource shares how 8, 9 and 10 year old children created a home for all of their sculptures and paintings in the form of a cardboard suitcase which doubled up as a pop-up gallery.

Brave Young Makers: Year Three Pupils at Ridgefield Primary Transform Materials into Birds and Insects

This workshop presented year three pupils at Ridgefield Primary School with real design and making challenges as they worked to a brief to 'create birds and insects for their school tree'.

Making a RollerCoaster by Julia Rigby

KS1 children use their imaginations and sense of fun to collaborate to create a model roller coaster with moving parts.

Colourful Sculptural Birds by Pupils at Donhead Preparatory School

See fabulous selection of birds by pupils from Donhead Preparatory School sent to AccessArt by Phillippa Dudgeon, Head of Art & DT.

Making Sea Sculptures at Culford School, Suffolk

Artists Andrea Butler and Sheila Ceccarelli inspire year three pupils to invent their own sculptural sea creatures using simple wrapping and binding techniques with scrap store materials.

How to Roll a Clay Slab

Ceramic student Lena Peters demonstrates how to wedge clay and roll a clay slab.
