

Talking Points: What is Collagraph?

A collection of imagery and sources designed to introduce children to the process of Collagraph.

Please note that this page contains links to external websites and has videos from external websites embedded. At the time of creating, AccessArt checked all links to ensure content is appropriate for teachers to access. However external websites and videos are updated and that is beyond our control.

Please [let us know](#) if you find a 404 link, or if you feel content is no longer appropriate.

We strongly recommend as part of good teaching practice that teachers watch all videos and visit all websites before sharing with a class. On occasion there may be elements of a video you would prefer not to show to your class and it is the teacher's responsibility to ensure content is appropriate. Many thanks.

Collagraph

A collagraph print is made from textured materials collaged together on a piece of card. Lots of materials can be used to make collagraphs including (but not limited to) sand, fabric, bubblewrap, string and cardboard.

The surface of the plate can also be cut away at or into to create different marks.
